Subject: latest unit costs

Hi Jay and Chet - do you happen to have the unit costs for both phases (upper and lower harbor) of the phase 3 dredging and disposal? I can't seem to find it in my notes. We're in the middle of some cost estimating and these will help groundtruth our estimates.

I assume the ph.3 dredging is winding down, no? Battelle was out doing the plume tracking yesterday with Packer's CAD cell placement.

Thanks - Dave
